PERSONAL PROJECTS

Expense Tracker

- ▣ **Expense Calculator enables easy tracking of your expenses**
- ▣ Developed an Expense Calculator featuring an intuitive Income and Expense Table, a dynamic Expense Chart.
- ▣ Integrated secure user-specific data storage through Local Storage, accompanied by a convenient clearing function for individual user data within the Expense Calculator.
- ▣ **Technology Used: React js , Node.js , MongoDB, Express.js**

Wheels On Demand (02/2024 - 03/2024)

- ▣ "Wheels On Demand" is a React JS-based project with Tailwind CSS and other Bootstrap frameworks. It features two user roles: admin and user. The admin can add cars for rent and used cars, monitor payments made by users for rentals and used cars, and manage additional charges for reported damages. Users can view car details, purchase cars, report damages caused, and pay bills. This platform facilitates car rental and sales with a comprehensive user interface for both administrators and customers.
- ▣ **Frontend: React JS , Tailwind**
