ARYAMOL M S

Software Developer

CAREER OBJECTIVE

Eager to contribute my foundational programming skills to innovative projects, I seek a collaborative environment for continuous learning and professional growth as a fresh developer.

EXPERIENCE

MEA(R)N STACK INTERN 2023 - 2024
LUMINAR TECHNO LAB | KAKKANAD

I've developed a strong grasp of the React environment, Node.js, and MongoDB through practical project work.

PROJECTS

PROJECT FAIR

I have developed a full-stack project utilizing **MongoDB Atlas**, **Express.js** (a Node.js framework), and **React.js**. The platform allows users to seamlessly add new projects and update their profiles post-login, providing a comprehensive and interactive experience.

E-CART

Crafted seamless e-commerce experience with **React**, **Redux** & responsive design.

PARTY MAKERS

I've developed an event management project using JSON server and React.js, allowing administrators to seamlessly add and delete event details

WEATHER APP

Developed a weather discovery application using **JavaScript**, **Bootstrap**, **HTML**, and **CSS**, with asynchronous programming for real-time global weather information

TRAVEL WEB

I've created a static, responsive website highlighting popular global tourist destinations, using **HTML**, **CSS**, and **Bootstrap** for an engaging user experience. The site offers a visually appealing showcase of preferred locations outside India.

RESTURANT

Designed and implemented a static restaurant website using **HTML** and **CSS**, providing essential details in a visually appealing format.
